

AGENDA

NOT TO BE RELEASED ONLY BY
DULY AUTHORIZED PERSONNEL

Air Pollution Coordination Committee Meeting
Thursday, January 27, 1966
Detroit Laboratories
9:00 AM - DAS-6 & -7

- (1) Report on General Approach to Muskie Hearings J. Carter
- (2) Review, Discussion, and Editing of Statements
for Use at the Muskie Hearings

Statements to be prepared by the following:

- (a) Present knowledge of the medical aspects
of lead G. Roush, in
collaboration with
Dr. Kehoe
 - (b) Economics of leaded vs. non-leaded
gasoline W. W. Sabin
 - (c) Maintenance costs of leaded vs. non-
leaded gasoline H. E. Hesselberg
 - (d) Lead antiknock usage -- past, present,
and future as forecast W. W. Sabin
 - (e) Amoco's position on non-leaded gasoline W. W. Sabin
 - (f) Ethyl's work on engine modification to
reduce emissions: J. S. Wintringham
 - (g) Ethyl's catalytic exhaust program, D. A. Hirschler
 - (h) Effect of lead antiknocks on photochemical
smog, D. A. Hirschler
 - (i) Effect of lead on oxides of nitrogen, H. E. Hesselberg
 - (j) Critique of Clair Patterson's work A. S. Hawkes
- (3) Status Reports:
 - (a) Danielson Bill in California L. L. Huxtable
 - (b) SAE Automobile Exhaust Emissions
Conference C. A. Hall

- | | |
|---|--|
| (c) Plans for research programs by Lead Industries Association, American Petroleum Institute, and Public Health Service | H. E. Hesselberg
and
G. Roush |
| (d) Plans for medical research programs by Ethyl | G. Roush
A. S. Hawkes
H. E. Hesselberg |
| (e) Plans for engineering research programs by Ethyl | C. A. Hall |
| (f) Status of Argonne - Oak Ridge - Ethyl research program | A. S. Hawkes |
