Latosha and Tate:

I wasn't sure if today's teleconference was the right place to ask this question, but the USDA Agricultural Air Quality Task Force was mentioned in one of the answers regarding coordinated EPA -USDA-NRCS review. I was appointed to a 2-year term on this task force. It has historically met 2-3 times per year, but has not met since September 2016. The last update (attached) in September 2017 indicated that its charter had not yet been renewed by the Trump Administration. Is there a plan to renew its charter and involve the AAQTF in the review of EPA's proposals?

Thank you for the opportunity to advance this question!
