

NATIONAL LEAD COMPANY

111 BROADWAY
NEW YORK 6, N. Y.

Sept. 20, 1962

Messrs. D. A. Merson
H. J. Whitson

Gentlemen:

Following our discussion of Monday, I had another talk with Tipton, who informed me that Carter not only wanted CTP to market 45 x pigment, but also to take over the sale in Canada of their white lead and lead oxides. Thereafter, I talked with John Henrich about setting up something to establish CTP as a sales agent for Carter for these materials.

Attached is a draft which we have set up for your review and comment before I take it to Canada with me next week for review by Tipton.

Sincerely,

C. F. KAEGEBEHN
