## Security

Please join us this Friday for our third and final chapter of the Western Caucus Foundation's Digital Connect Forum on America's Energy security today and in the future – with the implications of COVID on America's National Security and Domestic Energy Production.

We'll be discussing NEPA Reform, renewables, transmission and the permitting process due to the repercussions of COVID-19, including challenges and potential solutions for Western and rural communities. Please note this event will be open to the press.

The Western Caucus Foundation has established the "Digital Community for Western and Rural America" as a new opportunity for the members of the Senate and Congressional Western Caucuses to interact and communicate with stakeholders, the public, and the media. Digital Community events will become a regular part of the Foundation's annual activities to promote the unique nature of Western and Rural America, and will featuring Senate and Congressional Western Caucus members.

***\*\*This event is planned to fully comply with Congressional Ethics rules and other applicable laws.\*\****
