Subject: RE: Effluent Treatment Trial AGC - visit

Hello [REDACTED]
I appreciate that there will be limited scope but I would like to keep the visit in place. My colleague [REDACTED] has booked the train and was hoping to see the site. Also there are one or two things which would be useful to chat about, rather than a formal meeting. Also, I am off for nearly all of March so have very limited availability. If you have a little more time, I would like to talk about the permit breaches last year, in particular when the plant was affected by the frozen weather (in which case we probably need 2 hours). I am deciding if this is in fact a category 2 or 3 incident and how we deal with it ; in which case I will send you a few notes beforehand. If you don't have the time we can schedule something in but I will need to make my decision very soon because we have an end of month deadline.
Feel free to call me.

Subject: RE: Effluent Treatment Trial AGC - visit

Hi [REDACTED]
I don't suppose we could do in a couple of weeks' time for a visit/discussion on the effluent improvement trial? We have only just started and by this time we'll have 3 different streams in place for the trial and hopefully some results back from the lab too, the trial will be ongoing all of March and into April so plenty of time to come back towards the end of the trial too.

Are you available 9/10th March? w/c 13th March?

Thanks,
[REDACTED]

Hello [REDACTED]

I don't propose a meeting before hand unless you think it useful. So can probably keep it to an hour. Would like to take some photos if ok.

I am trying to arrange it so that our new colleague [REDACTED] can join me.
