Dr. W. E. McCormick
Department of Industrial Hygiene
and Toxicology
The B. F. Goodrich Company
Akron, Ohio

Dear Dr. McCormick:

This has reference to your request of July 30 for a statement from this office concerning the acceptability of Geon Resin 404-HI as an ingredient of synthetic plastic film used for packaging product in federally inspected meat packing establishments.

On the basis of your assurance that the resin consists only of polyvinyl chloride and Hycar rubber, its use for the proposed purpose is acceptable to this office.

Very truly yours,

R. M. Mehurin, Chief
Laboratory Section
