Dear Bob:

I am afraid that I never thanked you for the copy of your October 11th letter to Dr. Giessel which you sent me. It struck me as a masterpiece, as it did Tom Shipman, the only other of our little group to whom I have shown it.

If my enclosure indicates some degree of improvement in the attitude of our Texas friend, I am sure that you are in no small measure responsible.

Sincerely,

MB:3W

**"IF THIS ARTICLE COULD BE READ BY PHYSICIANS EVERYWHERE,
MUCH GOOD WOULD BE ACCOMPLISHED"**

This comment, from a member of the faculty of the Duke University School of Medicine, is typical of those which have greeted our first mailing of Dr. Johnstone's "Facts and Fallacies." Through the cooperation of the Industrial Medical Association, we are now enabled to make it available to all members of that organization. Additional copies, in limited quantities, will be sent on request to those who may wish to place it before others in the industries with which they are associated.

MANFRED BOWDITCH

Please furnish 25 copies of the above article for distribution on a local level. Thank you.
