Kettering Laboratory of Applied Physiology
Eden Avenue
Cincinnati 19, Ohio

Dear Dr. Kehoe:

Your memorandum and form of agreement have been passed along to our Legal Department with the recommendation that the agreement be executed as you recommended. Mr. A. T. Colwell will be away for approximately two weeks so the signed copies and the money will not reach you until shortly after he returns.

A check for Dr. Kitzmiller's expenses on his recent trip here will be forwarded to him within a few days. In the future we prefer that you take traveling expenses from the fund provided for the experimental work.

We are glad that the news item in the May 19th issue of National Petroleum News was not especially distasteful to you because it did embarrass us considerably. Personnel on the staff of this publication have been unwilling to tell me the source of their information so I can only presume that it got to them through one of the men who attended our original meeting. The oil men who had been present were advised of the contents of your letter describing results from examining our people but I did not tell them to hold it as confidential. I will be sure not to make this mistake in the future and will certainly release no information officially except through you or with your approval.

Within a few weeks I will make a call in Cincinnati on business and I am looking forward to a short discussion with you on our general program. I will call you ahead of time for an appointment.

With all best wishes,

Very truly yours,

C. H. Van Hartesveldt
