EATON

Report of Occupational Injuries & Illnesses

Report Issued by:
Industrial Relations Department
WHQ

Full Year - 1984

U. S. FACILITIES

SCF-EC-2600

EAB 020225

9/2/85 Copy to Plant mgrs.

Looks like our plants have more problems than most others. Please advise me in writing by 9/30 how we can reduce our lost days. The transmission group is better as a total with only one plant in A/6 better than twice.

Kelley —

Please ask Stan if another report of this kind will be issued in 1986 & when. I don't have a reply attached from Dallas. Did we receive one? I want to write a memo on this when you complete with the above.
