Dr. M. J. Thomas
Research Division
Building No. 33
National Cash Register
Dayton 9, Ohio

Dear Dr. Thomas:

Attached is a photostat of the original paper of
Dr. Jensen in Sweden, relating to polychlorinated
biphenyls. I will be happy to have your ideas after
you read it.

As far as the section on toxicology is concerned, it
is true that chloracne and liver trouble can result
from large doses. Whether or not this is at all relevant
to small quantities existing in human fat is, of course,
an entirely different question.

At any rate, I believe before we worry about the
toxicological part of the problem, we should settle
the analytical part.

Sincerely,

R. Emmet Kelly, M. D.
Medical Director
