PRICE LIST

121st and Peoria Sts., Chicago, January 18, 1896.

We quote, subject to change, without notice:

STRICTLY PURE WHITE LEAD, DRY OR IN OIL, RED LEAD AND LITHARGE IN KEBS.

	Per lb.
In lots less than 500 lbs.	5 1/2c.
In lots less than 2000 and over 500 lbs.	5 1/4c.
In lots 2000 lbs. and over.	5c.

TERMS IN LOTS OF 500 LBS. AND OVER: Note or acceptance at 60 days or 2 per cent discount will be allowed for cash paid within 15 days of invoice date.

F. O. B. Chicago, Omaha, St. Louis, Louisville, Cleveland, Cincinnati, Detroit, Pittsburgh, Buffalo, New York, Philadelphia and Boston.

Deliveries will be made at Nashville, Kansas City, St. Paul, Memphis, New Orleans, Atchison, St. Joseph, Leavenworth, Sioux City and Minneapolis at an advance of 1/4c per pound over above prices.

FREIGHT will be equalized only with corroding points, or delivery points.

Prices quoted on request on Dry White Lead, Red Lead and Litharge in barrels and half-barrels. The above prices and terms supersede all previous prices and terms offered by this company.

NOTE: We grind a special Coach and Car Lead for Fine Carriage, Car and Wagon Work.

CARTER WHITE LEAD CO.

SPECIAL NOTICE.

A Rebate of $\frac{1}{4}$ c per pound from our pricelist of January 18th, 1896, will be allowed to buyers of 12 tons, to be taken during the year, COUNTING ALL CORRODERS' Brands of Strictly Pure White Lead, Red Lead and Litharge, payable when the quantity named has been purchased and on all subsequent purchases.

We reserve the right to cancel this special rebate at any time without notice, allowing to parties entitled thereto such amount as may be due at time of cancellation.

CHICAGO, January 18th, 1896.

CARTER WHITE LEAD CO.

TO THE TRADE.

In issuing our Price List for the season of 1896, we beg leave to call your attention to our increased facilities for supplying the trade with White Lead that for Whiteness, Fineness, Body Covering Capacity and Durability, is unequalled by any other brand on the market.

Last year we put in operation our new factory in Chicago which has the largest capacity of any Corroding White Lead Works in this country.

There is more Carter Strictly Pure White Lead consumed annually than any other one brand in the world.

To those not familiar with the merits of Our Lead we should be pleased to submit samples and enter into correspondence, setting forth our reasons why we consider Our Lead the very best.

We also wish to call your attention once more to the fact that the Carter White Lead Company is independent, having no connection with any Trust, Pool or Combination. We positively guarantee Carter White Lead to give entire satisfaction in every respect.

Soliciting your patronage, we are,

Yours very truly,

CARTER WHITE LEAD CO.

THE SHERWIN-WILLIAMS PAINT.
PREPARED.

MANUFACTURED BY
THE SHERWIN-WILLIAMS CO.

100 CANAL ST., CLEVELAND.

Gallons, half-gallons and quarts packed for shipment in dry barrels holding 12 to 18 gallons, or in cases of six gallons each, i.e., six one-gallon pails, or 12 half-gallon pails, or 24 quart cans.

This Paint is sold by the S. W. Comp'y direct to dealers who have been selected as agents for its sale to consumers, and in no other way. The Company has but one price for the paint, all dealers or agencies being served alike. The only deliveries are f.o.b. Cleveland, Chicago, New York and Boston. When shipments are made from the Company's special warehouses in other cities the cost of transportation (at car load rates,) from the Company's own nearest warehouse to special warehouse is added to the price.

*Used as a finishing coat over two or more coats of Flat White.

Q221

PURE COLORED PAINT.

It is safe to say that few, if any, paints which have been put upon the market have given such universal satisfaction as this.

It is a Paste Paint, made of pure pigment ground in pure refined Linseed Oil, and is to be thinned for use with oil and dryers when required, in the usual way.

Guaranteed to cover one-third more surface and wear longer than a paint made from White Lead alone.

Properly applied it will not crack, peel nor scale, and will not chalk off.

White and thirty choice colors, } per lb. net... { 25¢
100 lb. cases, } 10¢
12 1/2¢ put up in 50 lb. cases. 25¢ put up in 100 lb. cases.

AMOUNT REQUIRED.

PCP

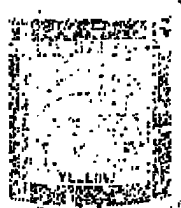

No rule can be given that will prove absolutely correct in every case, because the surfaces to be covered, as well as the manner in which the paint is put on, will vary largely in nearly every instance.

The average amount required for two good coats, on a smooth surface of new pine lumber, may be found as follows:

Multiply the length by the height on each side of the building or room you wish to paint. Adding these amounts together will give you the total number of square feet to cover. Divide this by 45, because one pound will cover 45 square feet, and you have the number of pounds to purchase. For an old or rough surface, 15 or 20 per cent. more will be required.

SPECIAL FLOOR PAINT.

When applied to a surface, it creates, the object being, to produce the most durable and satisfactory coating on a wood floor which can be obtained. By careful application to a surface free from grease or moisture, it will not blister, peel or rub off, and will dry with a glossy surface under ordinary circumstances in one night. It will become very hard, yet sufficiently elastic to render it remarkably durable.

CREOSOTE PAINT.

CREOSOTE (Gr. *κρῖν*, to preserve) has a strong, peculiar smoky odor, and is a powerful antiseptic.

Wood treated with it is not subject to decay.

Combining this wonderful preserving property with linseed oil and pigments, we offer CREOSOTE PAINT as an article, the excellence of which must at once commend it to all.

This paint is a superior article for any surface, and is perfectly adapted to use on Bridges, Barns, Roofs, Fences, Out-buildings, etc. Shingles dipped in this paint will last so much longer that the economy of thus treating them is unquestioned. It is also a disinfectant, making it especially valuable for farm buildings, sheds, basements, etc. The peculiar odor passes entirely away with the drying of the paint.

Put up for shipment in gallon Tin Pails, in 5 gallon Buckets and 50 gallon barrels.

Put up in 4 gal., 5 gal., and bbls.

*Full Paint, No. 2801: Black is made heavy enough in consistency to admit of thinning, by the addition of one gallon of boiled linseed oil to each gallon of paint.

†Hull Paints, Nos. 2812 and 2813 are semi-liquid and may be thinned for first coats by the addition of 3 gallons boiled linseed oil to each gallon of paint. For second and third coats with from 1½ to 2 gallons boiled linseed oil.

We recommend for first coats the addition of about $\frac{1}{2}$ pint of turpentine to the paints as thinned above. When one coat only is used, leave out the turpentine.

You can readily see the economy in the use of these goods, and for durability and beauty of finish they can not be excelled.

.....	
.....	
.....	

This is a superior quality of paint made expressly for the purpose indicated. It dries very quickly. It dries with a hard, elastic surface and is absolutely free from tack. It has great covering capacity and is low in price.

Steamship Liquid Red Lead.

Put up in 1 gal., 5 gals. and bbls.

CAT. NO.	PRICE PER G. U.
2840 (Pigment is strictly pure Red Lead).....	
2848 (Pigments are strictly pure Red Lead and strictly pure White Lead equal parts).....	

The economy in the use of Steamship Liquid Red Lead on hulls, holds, smoke stacks, etc., is from the fact that it does not get hard in the package and that consequently there is no waste. All liquid red leads in the market other than our own, unless used immediately, become hard in the package and subject the consumer to great loss, often as great as 25 per cent.

Adapted also for Structural Iron Work, Bridges, etc.

Steamship Paint for Interiors.

Put up in $\frac{1}{4}$ gal., $\frac{1}{2}$ gal., 1 gal. and 5 gals.

PRICE
PER GAL.

Lavender.....	
Pea Green.....	
Light Blue.....	
Cherry.....	
Dark Blue.....	
Vermillion.....	

Especially adapted for walls, ceilings and the numerous small articles on a vessel requiring a good paint. This is a fine oil paint made from pure materials, mixed ready for immediate use and will dry as quickly as is consistent with a good elastic paint. Will be found uniform in beauty of finish as well as in excellency of its drying and wearing qualities.

Steamship Paint, Varnish Stain.

Put up in $\frac{1}{4}$ gal., $\frac{1}{2}$ gal. and 1 gal.

PRICE
PER GAL.

Cherry.....	
Oak.....	
Mahogany.....	
Walnut.....	
Ebony.....	
Ground.....	

Imitates the color of the wood named. Can be used over light colored raw wood or painted surfaces. Stains and varnishes at one operation. The best results can be obtained by the use of our ground before applying the Stain.

Steamship White Lead.

Put up in Kegs, 12 1/2, 25, 50, 100 and 250.

Our Steamship White Lead is especially prepared for marine use, and is in all respects the best Lead in the market for that purpose. It will be found to be very white, of good body and very durable. It is more finely ground than other leads and consequently will be found to be much more economical to use by reason of the increased surface it will cover. It is also especially prepared to resist the destructive action of the water which tends to decompose most leads so that they soon wash off.

Price.....per lb.

Steamship Paint, Engine White.

Put up in 12 1/2 and 25.

These are goods especially prepared for heated surfaces. They are ground only in paste form and are to be thinned only with Turpentine. When so used they will not turn yellow, but remain perfectly white for a long time.

Price.....per lb.

Steamship Paint, Submarine Hull.

Put up in 5 and bids.

Numbers of tests made prove that in our Submarine Hull Paint we have an article which will meet the requirements specified, and we also recommend its use for the coating of the inside of hulls, especially the parts below the water line.

One of the most important features is that it will dry readily in a very short time, thereby saving largely in time and expense to the owners.

Price.....per gal.

Steamship Paint, Smoke Stack Black.

Put up in 15, 55 and 100 lbs.

These goods are a High Grade of Black of great lustre and far more durable over heated surfaces than any other black in the market.

Price.....per gal.

Steamship Paint, Carbon.

Put up in 55 and 100 lbs.

This Steamship Carbon Paint is especially prepared for marine use, and must necessarily dry much quicker than our regular carbon. Steamship Carbon will cover from 1000 to 1500 square feet to the gallon.

Price.....per gal.

Steamship Paint, High Grade Graphite.

Put up in 15, 55, and 100 lbs.

There has been a limited demand for Graphite Paint for steel vessels. The trouble with most of the Graphite Paint on the market is due to the fact that a very low grade of material is used in its manufacture; in fact, the pigment so called Graphite actually contains only about ten per cent of pure graphite. Such paint is no better than cheap earth paint.

The Graphite we use in the manufacture of our paint is the purest and best to be obtained. This paint we have been making for a number of years and with satisfactory results.

Price.....per gal.

The Sherwin-Williams
Liquid Filler.

DARK.

Before attempting to apply, stir thoroughly from the bottom. If considered too heavy for some purposes, thin with pure Spirits of Turpentine only. For coarse woods, best results are obtained by use of one coat Liquid Filler over Paste Filler, then Varnish. Before applying varnish, allow at least six hours.

SUBJECT:

100 Canal Street, CLEVELAND,

12/22/96.

Wm. A. Parks
DEC 22 1896

Mr. A. M. Parks,
Sales Manager,
Cleveland, O.,

Dear Sir:-

Regarding our arrangement with The Old Colony Paint Co.

I write this to confirm what I have explained verbally so that the record may be preserved.

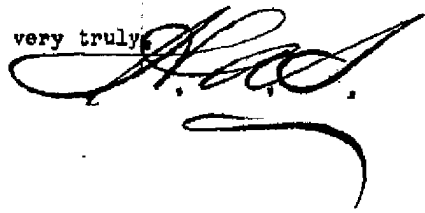

Dating from the first of Nov. 1896, you are to ~~offer~~^{carry} prices on all the stock of S-W Co. goods the O. C. P. Co. had as per inventory, making a rebate on every article which has been in any way reduced in price either regularly or to The O. C. P. Co. specially.

This includes the new prices on First Quality, French Crown Green, Graining Colors, etc. special price on P. C. P. and so far as possible any favors we are able to give them on Q. D. Colors.

As soon as these rebates are made up you will please see that The O. C. P. Co. is notified not only of the amount but the prices fixed upon.

In addition to the above, a strictly exceptional and special arrangement has been agreed upon regarding S. W. P. That is to say, ^{all} S.W.P. which The O. C. P. Co. shall sell direct they are to have a rebate of ten per cent. This can be settled quarterly or annually as you may find most desirable.

Creo & N. & D. W. Yours very truly

QUANTITY.	DESCRIPTION.	SIZE OF PAGES.	PRICE
-----------	--------------	-------------------	-------

1/13/97

The Old Colony Paint Co.,

Boston, Mass.,

Gentlemen:

For price on Gloss Black, Gloss Black Finishing, etc., in Barrels, all that will be necessary for you to do to get price would be to take the price quoted you in ls and subtract 25c a gallon.

On Buggy Paint Black, etc., if you take price for Quarts then subtract 25c a gallon it will give the price in ls, and for the price in Barrels subtract 25c from the ls price.

1/2 Barrels are always the same price as Barrels.

Before making any subtractions as above referred to, you should figure out what the goods would cost you net and then make these subtractions as above shown. We wish to apologize for having so long delayed answer to this inquiry.

Yours truly,

(Dictated)
