c.t. Mr. Verhalen

Subject: Kodaras Air Erosion Test

Gentlemen:

Attached hereto is copy of a letter received today from Mike Kodaras concerning new filters that he has added to the system, and also information concerning the inability under any circumstances of the tolerance provided for in the G.S.A. specs. to be met. I think it behooves us to get together very, very quickly, to discuss the situation, decide what to do relative to Kodaras and the test program, and to get to Mr. Tocka in Washington, D.C. as quickly as possible, to have the allowable minimum altered. Otherwise, we may all be in trouble on future jobs.

Very truly yours,

Sprayed Mineral Fibre Mfrs. Assn.
