SUBJ: Resource Conservation Recovery Act (RCRA) Compliance Evaluation Inspection (CEI)
Techtrix, Inc.,
EPA ID: ALD982167678

Dear Ms. Beavers:

On July 27-28, 2022, the U.S. Environmental Protection Agency, along with the Alabama Department of Environmental Management (ADEM), conducted a RCRA CEI at Techtrix, Inc. (Techtrix) located in Gadsden, Alabama to determine the facility's compliance status with the RCRA § 7003 Administrative Order on Consent (AOC), Docket Number RCRA-04-2021-2103, RCRA, and applicable regulations. This RCRA CEI was an EPA-lead inspection. The AOC became effective on September 14, 2021, and requires the named Respondent to complete the work required in Section IX of the AOC (AOC/Work to be Performed).

The EPA has determined that the facility may not be in compliance with several requirements of the Alabama Hazardous Waste Management and Minimization Act of 1978 (AHWMMA), Ala. Code § 22-30-1 et seq. [Subtitle C of RCRA, 42 U.S.C. §§ 6921 to 6939(g)], and the regulations promulgated pursuant thereto, found at Rules 335-14-1 to 335-14-17 of the Alabama Department of Environmental Management (ADEM) Administrative Code (ADEM Admin. Code) [Title 40 of the Code of Federal Regulations (C.F.R.) Parts 260 through 279] based on potential violations observed during the CEI. The observations made during the inspection are summarized in the attached RCRA CEI Report.

Results of the CEI and subsequent injunctive relief will continue to be discussed in the weekly meetings conducted between Techtrix and EPA in accordance with the AOC.

Please feel free to contact Alan Newman if you have any technical questions regarding the observations and findings from the inspection performed at Techtrix's facility either by telephone at (404) 562-8589 or by email at newman.alan@epa.gov.

Sincerely,
