Dr. Clark S. Fitzmorris
1 West St. Clair
Cincinnati, Ohio

Dear Doctor Fitzmorris:

I send you herewith a report on the analysis of the urine and blood of your patient, [REDACTED]

A bill has been sent to your patient in accordance with your instructions, for the reimbursement of the Laboratory for its cost in making the analyses. However, if this is an Industrial Commission case, it will be taken care of through that channel, presumably.

We may or may not have indicated previously that we are interested in this work and in cases from the aspect of information, and not from that of diagnostic work for fees. In any case, I would appreciate your sending me as detailed information as you can on the occupational and clinical aspects of the case, since that is our only basis for rendering assistance, other than that of a willingness to serve the interests of the patient as well as we can in matters that cannot be dealt with elsewhere. Actually, I cannot make a sound interpretation of the results without such information.

Cordially yours,

Robert A. Kehoe, M. D.

RAK ef

Enc.

Name: [REDACTED]

Material: Urine and Blood

Submitted: 1-2-52 by Dr. Clark S. Fitzmorris, 1 West St. Clair,
Cincinnati, Ohio

Required: Lead Analyses

URINE

Analysis Number	-	52A-81
Volume	-	150 ml.
Specific Gravity	-	1.008
Mg. Pb/Liter	-	0.08

BLOOD

Analysis Number	-	52A-82	
		<u>Spectrographic</u>	<u>Dithizone</u>
Grams	-	20.1	20.9
Mg. Pb/100 Grams	-	0.095	0.09

The concentration of lead in the blood of this man is elevated to a level which is indicative of recent hazardous exposure to and absorption of lead.

Signed:

Robert A. Kehoe, R. D.

Samples Collected: 1-2-52
Samples Received: 1-2-52
Samples Reported: 1-5-52
