Hi 5.1.2e and all,

We received the exact same request. I think our standard reply by one of us on behalf of all ('we'll reach out to you if your comments in the consultation give reason to do so') seems to me the most suitable way to respond.
If you decide something else during Monday's meeting, I will go along with that.

Ämne: Request for meeting with Syensqo on Universal PFAS Restriction

Dear 5.1.2e,

I am contacting you to ask for a meeting to discuss the potential unintended consequences of the Universal PFAS Restriction and present Syensqo's position on the subject.

Syensqo is a specialty chemical company which recently spun off from Solvay. We have the broadest portfolio of fluoropolymers (including fluoroelastomers) in the industry. 5.1.1c to expand our production of PVDF, a critical fluoropolymer for EV batteries. We are the leaders on this market, 5.1.1c
5.1.1c Our headquarters are based in Brussels, and we have significant production of fluorinated products in 5.1.1c
5.1.1c

We have been pioneers in the phasing out of fluorosurfactants for the manufacturing of our fluorinated portfolio and we have a roadmap in place to eliminate the use of fluorosurfactants in nearly 100% of our portfolio by 2026.

We would like to bring to your attention the R&I efforts we have made to phase out fluorosurfactants and explain the status of emissions at the manufacturing stage, while also providing a broader overview of the initiatives we are investigating to minimize emissions along the entire life-cycle of our products.

We submitted our data to ECHA's public consultation that ended in September 2023. You can find our public submission under the ID numbers #6179 (Part 32), #8281 (Part 85) and #8870 (Table 104).

We would welcome the opportunity to delve into the confidential aspects of our input to the consultation and exchange on this critically important file with you.

I look forward to hearing back from you, and do not hesitate to get in touch with any question you may have.

Best regards,
