Denver, Colorado

Re: Arapaho Station
B&W S-9583 & S-9678

Dear Harry:

In answer to your request for copies of the Operating Instructions on your units #1, #2 and #3, we are sorry to advise these are not available since much of the material has been out of publication for many years and we do not have copies of these instructions in our office.

In the meantime, however, we are enclosing one (1) copy of our latest instructions for the EL Pulverizers and the care of boilers and related equipment.

By copy of this letter we are also sending these to Mr. Hottinger.

Yours very truly,

THE BABCOCK & WILCOX COMPANY

Charles E. Green
Sales Engineer
