Dear Administrator Pruitt,

Thank you for your time during the Business Council for International Understanding Roundtable on June 20th. I was honored to be a part of the discussion and greatly appreciate your hard work and progress on keeping the agency focused on process and sound science.

I particularly valued learning about your principled approach to issues at EPA, and I look forward to continuing to build bridges on issues important to our environment and to American agriculture.

Again, thank you for your time and insights.

Kind regards,
