Dear Mr. White:

Your request for the lead content of various Du Pont products which we supply you has been passed along to me for reply. We understand this information is requested in regards to the Walsh-Healy Safety and Health Standards Act of 1968.

Attached is a list of products, which you submitted, and their respective lead concentrations. Additionally, I have attached a copy of a letter recently sent to Mr. William Peters of your St. Paul, Minnesota location which describes the relationship of the Walsh-Healy Act and paint products. I believe this attached letter is self-explanatory; however, if you need any further information, please do not hesitate to contact me.

Very truly yours,

A. B. Naselow
Toxicity Coordinator
