Fiber Purchase Records Being Produced To Our Office Later This Month For Which "Sales Invoices" Exist.

The following information is a result of a review of the further production of documents by GAF, specifically, documents

taken from the Vermont mine site by Michael Baker, GAF Counsel, in November 1985.

Note: The dates which follow the names of purchasers indicate the date of a series of documents usually consisting of fiber invoices and other shipping documents for a single shipment of fiber. Many of the purchasers which follow have no dates as time did not allow every document to be indexed by date.

Conclusion

Gabriel Jackson states that further production of Calsilite sales documents are forthcoming later this week. Paralegal Heidi Honen states that copies of the five boxes of documents will be forthcoming this week. And Ms. Jackson states that further production of documents from the list of files taken by Anthony Marchetta, GAF Counsel, in 1982 from the Vermont Mine will be produced to the court pursuant to the Order of September 17, 1986 before Judge Kawaichi.

Once the actual documents are received, this memo will be revised to includes dates and sites of fiber shipments.

END OF MEMO.
