Subject: Chalmette refinery

Chalmette refinery is releasing harmful herpes virus in the air along with the fungus tinea. The same fungus that causes athlete's feet and harmful respiratory illnesses... They are also releasing a harmful red oily chemical corroding pipes to homes in the city and schools this chemical is affecting two to three streets in width trailing a plume reaching 28 ft in height affecting huge palm trees.....harming the people if
chalmette.....https://www.fbi.gov/news/stories/2017-directors-community-leadership-awards-042018/layout_view
