Dear Mr. Parker:

The bi-annual medical review of employees at our Port Allegany plant referred to in our previous correspondence has been completed.

Just about every employee contacted did complete the X-ray and pulmonary function test as scheduled and has reviewed the results with our physician, Dr. R. A. Niles. We are pleased to report that no abnormalities were noted. Appropriate records are on file in Port Allegany and in Dr. Niles' office.

We will continue to monitor those employees exposed to our old Unibestos® operation and keep you posted as to the results.

Your continuing interest is appreciated.

Sincerely,

R. C. McPherson
