MIDWEST REGIONAL CONFERENCE ON CHILDHOOD LEAD POISONING - MAY 10-11 CONRAD HILTON - CHICAGO, ILLINOIS

The Illinois Chapter of the American Academy of Pediatrics with the assistance of a Bureau of Community Environmental Management Contract is proud to sponsor the Midwest Regional Conference on **Childhood Lead Poisoning**. A sincere effort has been made to amass a program truly relevant to the problem and applicable to all involved in the diagnosis, treatment, and prevention of the disease. As the agenda indicates the Illinois chapter has pulled together a consortium of experts to include leading clinical specialists, national and local political leaders, and those interested in the environmental aspects of the problem. The Socio-Economic aspects of plumbism (Lead Poisoning) will not be ignored. Medicine cannot single-handedly correct the correctable causes of plumbism but should not expect to treat a child suffering from the disease only to see him return to the same environment that caused it in the first place. Much must be done in many areas to prevent lead poisoning and the medical community should be leading the way. Hopefully at the end of this day and a half conference we will all be better equipped to execute our roles in conquering plumbism in a child and a community. . . . The conference begins at 9 a.m. May 10 and closes at 12:30 p.m. May 11. Consider being a part of it.

PROGRAM

Midwest Regional Conference on Childhood Lead Poisoning **Sponsored by Illinois Chapter, American Academy of Pediatrics**

MAY 10

CONFERENCE MODERATOR
Joseph R. Christian, M.D.
Chairman, Dept. of Pediatrics
Presbyterian-St. Luke's
Chicago, Ill.

EASTERN REGIONAL CONFERENCE ON CHILDHOOD LEAD POISONING-JUNE 2-3 DELAWARE ACADEMY OF MEDICINE

The Delaware Chapter of the American Academy of Pediatrics, with the assistance of a Bureau of Community Environment Management Contract, is sponsoring the Eastern Regional Conference on **Childhood Lead Poisoning**, to be held on June 2-3, 1972, at the Delaware Academy of Medicine located at Lovering Avenue and Union, Wilmington, Delaware. The purpose of this Conference is to focus attention on the medical management and reduction of hazardous sources of lead intake in the control of childhood lead poisoning. We hope this Conference will serve to stimulate a multi-disciplinary attack on the problem by bringing together experts in the field of medicine, government, law, industry, education and community action, and inviting audience participation in the discussion of the problem as it relates to our region. Consider being part of it.

PROGRAM
