Date February 16, 1983
Subject MEDICAL TESTING X-RAYS

In my letter to you of November 22, I outlined some changes in the medical testing program for 1983, specifically in the x-ray processing. At that time the Medical Department was going to have the x-rays read by a contract group in Ponca City. The cost of this service was going to be backcharged to the plants.

However, the attached letter explains the Medical Department's decision not to process the x-rays in this manner. They will be done as in the past and the anticipated charges will of course, not be added to the 1983 testing costs.
