Dear all,

We received the below meeting request on behalf of Chemours. We intend to reply with the standard decline in a few days unless someone specifically wants to have this meeting. We have already met with Chemours – and we can always ask them to submit this new information in writing.

Kind regards,

5.1.2e

Dear 5.1.2e,

My name is 5.1.2e Scandinavia in Brussels-based public affairs company [EU Focus](#). I am contacting you in my capacity as 5.1.2e of **The Chemours Company**. Chemours is one of the leading global producers of fluoropolymers & fluorinated greenhouse gases (F-gases). Chemours' products portfolios empower a wide range of downstream industries in Europe including semiconductors, automotive (including e-vehicles), hydrogen, 5G, medical devices, heat pumps, air conditioning and insulation, among others.

In the context of the upcoming [proposal to restrict PFAS](#), EU Focus, together with a group of top-level technical consultants (RPA, SCC), **has been assisting The Chemours Company in the elaboration of critical technical & socio-economic data** on hazard, uses, exposure pathways of a specific group fluoropolymers & F-gases from Chemours' product portfolio. Over the recent months, we have made major progress in building a unique knowledge base on how those chemicals are used and their possible exposure to human & environment.

We wish to have an informal discussion on new information with the Member States authorities.

Planning to be in Norway in April, we were wondering if it would be possible set up a face-to-face meeting with you and your experts (also in the presence of Chemours, should you consider useful), to discuss the above.

In the hope this would possible, thank you for letting us know a couple of dates at your convenience, preferably in April, if possible. We look forward to meeting with you in person.

Kind regards
