This morning, a supervisor at the W. G. Krummrich plant was arrested by St. Louis County Police and charged with theft by deception. The arrest was a result of a cooperative effort by an outside contractor hired by the plant, Monsanto Corporate Security and county police. The individual allegedly asked for a \$75,000 cash payment for awarding an asbestos removal contract. County police videotaped the passing of the cash at the Stouffer Concourse Hotel, and then made the arrest.

If we receive media inquiries, we will confirm that an employee was arrested as a result of the cooperative effort, but will refer reporters to the police for any additional details.
