M. N. Johnson, M. D.
Assistant Medical Director
Medical Department
Monsanto Chemical Company
800 North Lindbergh Boulevard
St. Louis 66, Missouri

Dear Dr. Johnson:

Thank you very much for your letter of January 14th giving us First Aid instructions for our personnel who have had Pydraul A-200 in their eyes. As you can see from the attached, I have passed this information on to the doctors who will be treating our patients.

Although your letter does not refer to it, I would be grateful to hear whether Monsanto does have available any signs which can be attached to our machines using Pydraul, which would indicate (1) the water flushing treatment mentioned in your letter, or (2) signs calling for special precautions because the machine is filled with Pydraul. If such signs are available, I would, of course, be willing to pay for having three copies to post on our various machines.

Very truly yours,

DRYAD DIE CASTING CORPORATION
