covering the pipes, what they were doing with it?

A What they would do with it?

Q Yes.

A It was so long and if they needed a piece this big, they would take and cut it to fit until they came to an elbow or a bell in the pipes, and then, of course, that was applied by hand like an elbow. That would be applied by hand.

Q And were the pipecoverers --

A Back in them days, but today it is not, it comes formed now.

Q Okay. Were the pipecoverers covering pipe and cutting pipe at the cathedral during that particular time period when you were there?

A They were on the jobsite, yes, sir.

Q What did it look like when they would be doing that?

What would the jobsite look like?

A Well, it could be dusty. What they would create or something?

Q Yes, sir.
