REACTIVE CHEMICALS COMMITTEE REVIEW, FOLLOW-UP

Project: Soft Water Heaters at Cellulose

Project Rep.: Lisa Widere

Committee Present: Wagener, Pittman, Lay, Gathers

Considerations:

1. Check possibilities of contaminating system with organics from the process.
2. Check the design basis for all relief devices.

Response:

1. There is not a possibility of contaminating the hot soft water with organics.
2. The design basis for all relief devices was reviewed by Process Engineering.

REACTIVE CHEMICALS COMMITTEE REVIEW - Cellulose

There will be a review meeting Wednesday, Dec 10, 1986  
(When)

The meeting will be held in 2510 Conference Room  
(Where)

at 2:30 p.m. to review Soft Water Heaters (Cap. Auth.)  
(What)

If you are unable to attend please arrange for someone to substitute for you, and advise me (6283) or Robbie Bagaley (1805) of your replacement.
