Mr. John Krey, Assistant to the President
Reynolds Metals Company
Reynolds Metals Building
Richmond 19, Virginia

Dear John:

As you are aware, we have been negotiating with Mr. W. G. Reynolds whereby materials could be placed on consignment with Southern States both in corrugated and coiled forms. The purpose of this agreement was to experiment to see how effective our operations could be dovetailed into those of your Parts Division in the event of the exercise of the option.

At four of our locations, we have agreed to purchase formed aluminum roofing rather than coils for forming aluminum roofing. So that we may continue to get the 5% allowance that was given to us in the signed agreement dated December 14, 1949 extending the option to Reynolds Metals Company and the letter of modification dated December 19, 1949, we are asking that this letter serve as a modification of our option agreement to extend to us 5% on any corrugated roofing purchased from your company as well as on any coils purchased from your company for fabricating into roofing. This letter is sent to you in duplicate with a space provided for Mr. Richard Reynolds' signature to indicate his acceptance.

We are withholding signing the agreement prepared by Mr. W. G. Reynolds until we receive a signed copy of this letter.

Sincerely yours,

J. W. McIntire
Executive Vice President

JWMcI/cl

cc: Mr. W. G. Reynolds

The foregoing is accepted and approved.
