

ALL BUILDINGS— ONE PAINT— WHITE-LEAD

FOR home, barns, silos and all outbuildings, white-lead is the paint to use—the same durable paint that professional painters have sworn by for over a hundred years. It is their standard for all types of buildings . . . make it your standard.

Pure white-lead paint, such as that made of Dutch Boy white-lead, provides sure protection for property against the weather, wears long, does not crack or scale, saves money in the end.

The well-known Dutch Boy white-lead is now obtainable in convenient, soft paste form. With the soft paste, it takes practically no time at all to mix pure white-lead paint.

The soft paste, known as Dutch Boy soft paste white-lead, is guaranteed to be pure white-lead in oil and comes in 100 lb. steel kegs; 50, 25 and 12½ lb. steel pails.

For a helpful booklet on painting, write our nearest office for the "Handbook on Painting," 125 pages. Tells how to paint wood, metal, plaster, masonry, etc.
