Dear Mr. Banks:

The EPA on September 30, 1986 revised 40 CFR Part 61, National Emissions Standards for Hazardous Air Pollutants: Vinyl Chloride, to include Subpart V - National Emission Standard for Equipment Leaks. The previously approved Leak Detection and Elimination Plan for the plant has been modified to also satisfy the requirements of Subpart V. A copy of the revised Leak Detection and Elimination Plan is attached for your review. Written approval of this revised Plan is requested from the Mississippi Department of Natural Resources.

If you have questions concerning this request, please call me at 369-3609.

Sincerely,

R.A. Frohreich

R. A. Frohreich
