Mr. J. Warner, President
Tyler Pipe Industries, Inc.
P. O. Box 2027
Tyler, TX 75710

Dear Mr. Warner:

On November 6, 1979, the Occupational Safety and Health Administration received a complaint concerning safety hazards at your worksite at Highway 69 N, Tyler, Texas.

A copy of the complaint is enclosed for your information. Within 5 calendar days of receipt of this letter, please advise us in writing of your findings and of the action you have taken. Your response should be detailed, stating specifically what action you have taken to abate any alleged hazards.

The complainant has been advised of our response to the complaint and furnished a copy of this letter. Section 11(c) of the Occupational Safety and Health Act of 1970, provides that "no person shall discharge or in any manner discriminate against any employee because such employee has filed a complaint or because of the exercise by such employee on behalf of himself or others of any right afforded by this Act."

If we do not receive a response from you within 5 calendar days indicating that appropriate action has been taken, an inspection will be scheduled.

OSHA's policy is to randomly follow up with an inspection in a sample number of cases in which we receive letters of satisfactory abatement action.

If you have any questions concerning this matter, please contact our office.

Sincerely,

A handwritten signature in dark ink, appearing to read "C. R. Holder", is written over the word "Sincerely,".
