Dear Mr. Wormser:

Thanks very much for your kindness in sending me the publication of the Department of Labor and Industry of the Commonwealth of Pennsylvania on "Molten-Lead, Lead Oxides, White Lead and Lead Dry-Colors". I am very much interested in the contents of this publication and it will be of considerable use to me.

I was also interested in your further information about the case report in the Journal of the American Medical Association by Dr. Rathmell. I had occasion to write Dr. Fishbein shortly after the receipt of your information, and I made it a point to give both this article and that of Dr. Williams as examples of articles which should not have been accepted.

With kindest personal regards,

I am

Very truly yours,
