RAW MATERIALS DEPARTMENT

FOR INFORMATION ONLY

Technical Confirmation Sheet

80 TCS 24

DATE: June 11, 1980

SUBJECT: CODE 28 - WHITE TALC - REMOVAL OF TALC 1910-A FROM SOUTHERN TALC CO. AS AN APPROVED SOURCE

Recent Raw Materials investigation has found that all talcs supplied by Southern Talc Co. contain significant amounts of asbestos-like particles, (tremolite). Tremolite is considered toxic by our Environmental Health Department and consequently, asbestos containing talcs cannot be used due to its dusting agent application. Therefore, Talc 1910-A shall be removed from the Code 28 "Approved Supplier" listing. This notice is consistant with 80 TCS 21 which called for removal of Southern Talc Co. as a supplier for Code 26 (A-white talc).

A 00129

Originated By: Michael T. Gallagher

Approved By: John S. Dick

Distribution per Raw Materials Technical Mailing List
