FOR Mr. H. J. Kiefer

ANSWERING
LETTER OF

cc: Mr. R. L. Zartman
Mr. L. Nusser
Mr. J. G. Kingston
Mr. S. T. Bowell
Mr. G. L. Bechtel

SUBJECT Proposed Revised ANSI STANDARD Z66.1

Reference is made to your memo dated February 8, 1973 on the above subject. I leave Roy Brown's questions on the analytical methods to the experts.

However, in the proposed standard Paragraph No. 1, I would suggest that the wording be changed from "the danger of poisoning will be minimized" to "the possible harmful effects from the ingestion of heavy metal" or "the danger of toxicological effects from the ingestion of heavy metals".
