May 23, 1928.

Dr. Robert Kehoe,
c/o Medical School,
University of Cincinnati,
Cincinnati, Ohio.

Dear Doctor:-

I would like to arrange to have you come to Dayton, and with Dr. Brower make a medical examination of the man named [REDACTED] who claims to be still incapacitated through his connection with the Ethyl Gasoline operations. [REDACTED] is the only man who is now being paid by the Company, and he has been paid his full wages for a period of about four years, and the Companies are considering now what should be done with his case.

If it would not be too inconvenient for you, I think it would be very helpful to us to have you participate in the examination of this man, on account of your past experience with his case. I think it would be necessary for you to conduct the examination in the morning in order to get Dr. Brower, and if you will write me and let me know when you could come to Dayton, I will try to make the arrangement with Dr. Brower and also with [REDACTED]

Please let me hear from you, and oblige

REC-AZ

Very truly yours,

R. E. Cowden.
