Subject: Letter/Petition on RFS Reform with over 26,000 signatories

Samantha,

Please see the attached letter/petition in support of reforming the Renewable Fuel Standard (RFS). It is addressed to President Trump, and Administrator Pruitt is CC'd. It garnered the support of over 26,000 recreational boaters and anglers across the country.

I would welcome the opportunity to sit down and discuss RFS issues with you or other EPA staff at your earliest convenience.

Thank you.
