SUBJECT Pond Experiment

REFERENCE HAV/SB/772

TO : W R Richard - St Louis

Please find enclosed the summary of the results so far on the Pond Experiment at Ruabon.

As indicated, we plan to get some more samples of water next month and hope to obtain some good analyses.

If we can find some more fish, particularly in the pond containing Aroclor 1016 we will also analyse these.

H A Vodden

(1016 looks good - on Ltd data.)
