

CROSS-EXAMINATION (CONTINUED)

BY MR. SHELLENBERGER:

Q Good afternoon, again, Dr. Weir.

A Good afternoon, sir.

Q Dr. Weir, approximately what year was it that you began your work in the area of legal consultation, once you became involved in legal consultation?

A Probably the first project that ended up in litigation in some manner I am told is 1970 or '69 or thereabouts.

Q And, sir, is it safe to say that since 1970 until the present you have been involved in hundreds of depositions, is that correct, where people ask you questions?

A No.

Q No? Would it be over 50, sir?

A There was an interval of time I could not consult during the time I was employed at General Motors, so there was at least a three-year hiatus where I couldn't do anything.
