SUBJECT :

REFERENCE :

TO : Plant Manager's Safety Board

RECEIVED
3-5-76

In order to maintain the plant in a high level of Housekeeping and Safety awareness the year round, the SHAC Committee is planning on conducting a Guest Inspection of the plant quarterly. The first inspection for 1976 is scheduled for the week of March 15. Attached is a list of the inspection guides and their areas. The inspection teams should contact the department supervisor and set up an inspection time. After the inspection, the comments both Housekeeping and Safety wise, should be forwarded to the appropriate supervisor.
