Cindy:

A photo of Mandy would be great for the Brochure/Program too.

For now, I need your preferred name and title, the title of your Keynote, and your mailing address so that we can get you officially registered for the conference. Also, please let me know if you have any special requirements for your Keynote. We will provide the standard set for audiovisuals which is an LCD projector, laptop computer, screen, laser pointer, and microphone.

The format of the program is discussed at this time. The Presenters' Meeting is also a good time to load your presentation in the session room and check your audiovisuals.

We will add your Keynote information to the conference website asap and to the final program, which will be released to the public on September 29th.

The Conference is scheduled for Oct 10-11, 2017 in Arlington, VA and promises to be a great opportunity to exchange meaningful information on the current thinking relative to climate change and how we can mitigate any adverse effects and adapt to the potential consequences. The Association values EPA's thinking and is excited to provide the forum for discussion to our membership and other parties involved in the discussion.

However, our intent at this time is to list you in the Program at the Keynoter and then to send out a special mailing/notice announcing Administrator Pruitt as the Keynoter should he decide to speak.
