Dear Mario:

Enclosed are the materials from EPA concerning their proposed sampling of vermiculite mines. As I may have indicated to you on the telephone last week, they wish to conduct a test at the Libby Mine before bad weather sets in this fall. The reason for the urgency is that they have what I understand to be an internal deadline of one year to complete their study of vermiculite. They consequently would like to receive Grace's input at the very earliest possible time.

Best regards.

Sincerely,

Lee A. Rau
