

June 21, 1973

Mr. H. B. Carlsen, Secretary
Technical Committee
Gypsum Association
201 North Wells Street
Chicago, Illinois 60606

Dear Mr. Carlsen:

Please be advised that we at Georgia-Pacific are in agreement with your approach and dealings with CSHA representative concerning asbestos and joint treatment compound.

The use of asbestos in joint treatment materials is a very serious problem with all manufacturers, and any help that we can get with CSHA will be most welcome by all members of the Association.

Yours very truly,

Glenn E. Wilson
Vice President

GEW/ef

CC: Mr. C. W. Lehnert - Tigard Lab
