Dr. Robert A. Kehoe
Kettering Laboratory
College of Medicine
Cincinnati, Ohio

Dear Doctor Kehoe:

The day before Mr. Jenkins talked with you over the telephone the entire five sets of gross containers arrived. Apparently there was a holdup some place along the line on the first two, as they arrived along with the second batch of three that you sent. Thank you very much for sending these.

At the present time Dr. Hixson has taken two of these gallon containers out to Mr. [REDACTED] home and he is filling them for us. When this is completed I will take two samples of blood from the arm, as you told Mr. Jenkins you would like to have same.

I personally wish to thank you for your very kind interest in this case and hope that we shall have the pleasure of seeing each other again soon.

Yours very truly
