Dear Mr [REDACTED]

Following the email exchange below, I would just like to re-confirm 3M's interest in being contacted for a follow-up meeting and discussions with you as well as the other REACH competent authorities working on this dossier.

Kind regards, [REDACTED]

3M Science.

Subject: [EXTERNAL] RE: PFAS call for Evidence - Follow Up

Dear [REDACTED]

Thank you very much for your response.

I am not surprised that you received so many contributions and will need time to go through it all. Companies put a tremendous efforts over the spring and summer to retrieve that information and respond.

I am however surprised that the non confidential parts of these contributions will not be made publicly available. This seems to go against the transparency principles applicable nowadays to public consultations and since there was a feature allowing confidential business information to be identified, it should be possible to publish the non-confidential part of these contributions.

I speak for myself here but think it would be beneficial to everyone for this information to be made publicly available.

Best regards, [REDACTED]

Subject: RE: PFAS call for Evidence - Follow Up

****EXTERNAL SENDER****

Dear 5.1.2e

Thank you very much for the participation of the AmCham and other parties in the Call for Evidence with regard to PFAS.

The Call for Evidence ended successfully at midnight 31 July 2020 with around 560 participants submitting their responses and further information. The contributions will not be made publicly available.

Due to this large number of participations and therefore hugh amount of information, publications, statements etc., the assessment of this information by the national REACH competent authorities of Germany, the Netherlands, Norway, Sweden and Denmark will take place in the next months.

If necessary and applicable the competent authorities will contact you in the follow-up phase (second half of 2020 and/or first half of 2021) with further questions and/or an invitation to stakeholder meetings only if needed.

You will be only contacted in the follow-up phase with further questions and/or an invitation for a meeting if indicated by you in the questionnaire.

In case of any further questions, please do not hesitate to contact us.

Subject: PFAS call for Evidence - Follow Up

Dear 5.1.2e

Dear 5.1.2e

I hope you are doing well and had a good summer.

I understand many parties, including AmCham EU and 3M, whom I work with, contributed to the call for evidence in July.

When we last spoke you kindly indicated that you would engage in discussions with stakeholders in the fall once you have received the contributions to the call for evidence. In what timeframe do you think those

meeting can start to take place? September? October? I know 3M is keen to engage with RIVM on this, hence I am copying [REDACTED] 5.1.2e who may follow up with you directly on this.

Also, do you know if and when the contributions will be made available to the public for review? We have been looking but could not find them published yet.

Thank you and kind regards. [REDACTED] 5.1.2e

Dear [REDACTED] 5.1.2e

I assume you have seen the announcement on the call for evidence regarding the PFAS restriction.

Subject: Follow up from AmCham EU meeting

Dear [REDACTED] 5.1.2e

I hope you are doing well in these troubled times.

We met in 2018 as I was part of AmCham EU delegation who came to visit RIVM to discuss a range of REACH issues.

I understand that RIVM is currently working on a future PFAS restriction, and wanted to understand how Industry, including AmCham EU members, can best get engaged and contribute to the elaboration of this proposal in its different phases.

Would you be available for a quick call on this? That will not be long I promise.

Thank you and kind regards. 5.1.2e
