Mr. H. L. Levine - Asbestospray Corporation

Dr. M. Loeff - Smith & Kanzler Company

Mr. L. C. Jenne - Baldwin-Ehret-Hill

Gentlemen:

At the Technical Committee meeting on October 30, it was decided to plan to place the following precautions on the sprayed fiber bags:

"This product contains asbestos. Inhalation of asbestos dust over long periods may be harmful. Employees exposed to dust during application should be equipped with adequate personal protective devices".

Sincerely yours,

Frank M. Stumpf
Chairman, Technical Committee

P. S. to JPV, JFO -

not

I see no reason to go along with SMFMA, since this is essentially the same as our original caution which is as follows:

"This product contains asbestos. Inhalation of asbestos dust over long periods may be harmful. If employees are exposed to dust during use in application, those employees should be equipped with adequate personal protective devices".
