RECEIVED

MAY 26 1977

MEDICAL
DEPARTMENT

May 24, 1977

To: Vinyl Chloride Research Coordinators

SUBJECT: University of Louisville - Continuation of the Grant Proposal Entitled, "Research Techniques and Methods for Detection and Prevention of Carcinogenesis in Industrial Workers," Budgets for the Second (1977-78) and Third (1978-79) Years

Gentlemen:

The Chairman, Dr. T. R. Torkelson, has requested that the subject proposals be sent to you with the request that you send your comments to him (with carbon copies to the Project Manager) no later than June 30, 1977.

As may be observed Dr. Tamburro has submitted the proposals in two parts: Part A, a summary of the technical proposals, and Part B, a summary of the budgets. In addition, there are appendices of information which the investigators included in an effort to assist in the evaluation of the proposals.

Sincerely,

J. T. Seawell
Project Manager
Vinyl Chloride Research

May 23, 1977

TO: Vinyl Chloride Research Coordinators

SUBJECT: "Research Techniques and Methods for Detection and
Prevention of Carcinogenesis in Industrial Workers."
Initial Progress Report.

Gentlemen:

Your copy of the subject report is attached. The Chairman,
Dr. T. R. Torkelson, has requested that all Research Coordinators
review carefully this report and submit comments or opinions on
it to him with carbons to the Project Manager.

Your prompt action on this request will be appreciated as
no copies of the subject report will be submitted to the
Technical Panel until it has been approved by the Research
Coordinators.

Sincerely,

J. T. Seawell
Project Manager
Vinyl Chloride Research
