

5' where
in early aug.
(5-17th)

Bill Wheeler.

Anita Frankel + some other guy in Region X

call'd long time ago - this year!! - ~~about~~ about Feb - March
or April.

could be identify site exactly.

all kinds/questions

→ first sample ^{'78} from pump house -
(then drilled well)

2nd sample - '79 - after well.

as you pull off rd to trailer camp,

betw trailers & road, culvert under road,

not far off rd old pump house. only 50-60 ft.

off rd on trailer side, pump line, plastic pipe,
to wide spot in creek.

sample at base where pipe went into catch pond.

Newts came from that area (that stream) - some kids

found them!! (Summers Creek).

But - why '79 sample - spec. from Durbin?

call collect + shell call back.

Ask Anita
Frankel:

Why me?

Why this place?

206-442-2871

morning 9:30-10:00

samples '79 CSU - not confident find again

resample 1 place post 245-T.

~~exam to standard~~ T + TCDD

don't know how many people -
maybe 2 consultants.
