Subject: FW: Today

Ken,

Here is the attendee list from our meeting at Region 5 yesterday. We had a generally positive dialogue about finding a solution to the emissions control installation at our Lincoln, Ill plant.

Jeff Spector is the DOJ attorney who attended. He acknowledged that he is new to the case.

We agreed with Cathy Stepp to set up a working group to meet/call each week for the next 4 weeks to hammer out a potential resolution. We have and will continue to work hard to put forth good faith alternatives to the Lincoln installation.

We will update you as our discussions progress.

Best regards,

Jim

Hi Dan,

We will have it available electronically but won't have a projector. Typically, we are able to project from our laptop if you can connect it to your screen. We will bring hard copies just in case.

When you have a moment, can you confirm your attendees?

Best regards,

Jim

Jim – Do you just need a screen to project on? My understanding is that a screen is available. If you need a projector - that I'm not sure of. You may want to bring hard copies just in case. I believe there will be at least nine of us (possibly one or two more) at the meeting today.

Hi Dan,

Will we be able to project our presentation in the room we are meeting or should we bring hard copies for all?

Best regards,

Jim
