| 3 SMELTING | 6 GRINDING |

We do it all ourselves . . .

That's why we know it's good

Send for free sample of Anaconda White Lead today—see for yourself that it is whiter.

YOU can prove to yourself that Anaconda brings whiter whites and cleaner tints to every paint job. It's simple—just send for the FREE sample offered below and compare Anaconda with the lead you're now using. You'll be amazed at the difference. Every time, Anaconda will show a whiter white, or, mixed with color pigment, a cleaner tint. And this is no exaggeration either. We know what we're talking about because we ourselves control the product every step of the way . . . from mine to keg.

You can't afford to pass up this proof! This simple FREE test will prove to you that Anaconda is a really superior white lead. And in spite of its super whiteness it costs you no more than other quality lead.

HOW TO GET A FREE SAMPLE OF ANACONDA WHITE LEAD

If you will write to ANACONDA LEAD PRODUCTS CO., Dept. A6, EAST CHICAGO, INDIANA, using your business stationery, a sample can of Anaconda White Lead-in-Oil will be sent to you free. In writing, kindly state whether you prefer heavy paste or "all-purpose" paste.
